

HOUSING FRONT

HOUSING REAR

The technical drawing illustrates the rear housing from three perspectives:

- Front View (Left):** Shows a rectangular frame with rounded corners. It features four mounting holes at the corners, two labeled 'E'. A central rectangular cutout is present. The overall width is dimensioned as $70,5 \pm 0,3$ and the height as $110 \pm 0,3$. A small circular feature is labeled 'ABS'.
- Side View (Middle):** Shows the profile of the housing. The total thickness is dimensioned as $13 \pm 0,2$, with a specific section dimensioned as $(20,7)$.
- Top View (Right):** Shows the internal structure of the housing. It includes a central rectangular cavity and four corner mounting points, each labeled 'G'.

Assembly example HCS-C MINI 2W 9V 1 C

Technical drawing of the HCS-C MINI 2W 9V 1 C assembly, showing three views: front, back, and cross-section A-A.

Front View: Shows the top and bottom of the assembly. The width is dimensioned as $(70,5)$. The height is dimensioned as (110) . Section lines A-A and B-B are indicated.

Back View: Shows the bottom of the assembly, featuring four mounting holes and a central circular feature.

Cross-section A-A: Shows the internal components, including the battery (K) and the electronic circuit. Key dimensions include a total height of $26 \pm 0,45$, a top section height of $5,5 \pm 0,15$, and a bottom section height of $12,6 \pm 0,2$.

BATTERY COVER

Technical drawing of a battery cover (part 3) showing front and side views with dimensions.

Front View Dimensions:

- Top width: $59,8^{+0,1}$
- Bottom width: $73,6 \pm 0,2$
- Overall height: $(84,6)$

Side View Dimensions:

- Thickness: $3,9_{-0,1}$

Part number 3 is indicated by a leader line pointing to the front view.

PLATE

Technical drawing of a plate, showing two views: a side view and a front view.

Side View (Top):

- Horizontal dimension: 52,4
- Vertical dimension: 2,9^{+0,1}
- Reference point: 0

Front View (Bottom):

- Horizontal dimension: 49,8_{-0,1}
- Vertical dimension: 20,4
- Right side dimension: 17,8_{-0,1}
- Bottom edge dimension: 4
- Reference point: 0

HOUSING SCREW

2:1

The drawing shows a housing screw and a detail of its head. The screw is shown in a side view with a hexagonal head and a threaded shaft. A dimension line indicates the height of the head is (9.5). A dimension line indicates the diameter of the shaft is (ø 2.2). A detail callout 'H' points to a circular detail of the head, which shows a hexagonal shape with a central cross. A dimension line indicates the diameter of this detail is (4).

The technical drawing consists of two parts. On the left is a cross-section labeled 'B-B' showing the internal structure of the box. It features a thick base, a vertical wall on the left with a spring mechanism, and a vertical wall on the right. On the right is a perspective view of the box, showing its rectangular shape with rounded corners and a recessed top surface. A small rectangular slot is visible on the front face. Above the perspective view is a diagram with three arrows pointing outwards from a central point, labeled 'height', 'width', and 'depth'.

Transfer or data communication is not possible in case of paper.

LOCKING WASHER

5:1

8

Technical drawing of a locking washer. The side view shows a cylindrical part with a length dimension of (7,3) and a thickness dimension of (0,6). The front view shows a semi-circular shape with a central hole of diameter (ø 3,2) and a total width dimension of (7,3). A dashed line indicates the center of the hole.

AA CONTACT MINUS
2:1

Technical drawing of the AA CONTACT MINUS 2:1 component. The drawing shows a top view and a side view. The top view is a square with a circular contact in the center. Dimensions are given in parentheses: width (11,2), height (12), and total height (18,3). A dimension line labeled '9' points to the contact. The side view shows a spring mechanism with a dimension of (0,5) for the spring height and (10,5) for the total height.
